

# TANZANIA

Manufacturer's & Investor's Directory

**2023 EDITION**

**H.E. SAMIA SULUHU HASSAN**

President of the United Republic of Tanzania

## TANZANIA BACKGROUND

**T**anzania has achieved high growth rates based on its vast natural resource wealth and tourism. GDP growth in 2009-15 was an impressive 6-7% per year. Dar es Salaam used fiscal stimulus measures and easier monetary policies to lessen the impact of the global recession. Tanzania has largely completed its transition to a market economy, though the government retains a presence in sectors such as telecommunications, banking, energy, and mining..

The financial sector in Tanzania has expanded in recent years and foreign-owned banks account for about 48% of the banking industry's total assets. Competition among foreign commercial banks has resulted in significant improvements in the efficiency and quality of financial services, though interest rates are still relatively high, reflecting high fraud risk. Recent banking reforms have helped increase private-sector growth and investment.

## PEOPLE AND SOCIETY: TANZANIA

**Population estimate: 52,482,726**

Note: estimates for this country explicitly take into account the effects of excess mortality due to AIDS; this can result in lower life expectancy, higher infant mortality, higher death rates, lower population growth rates, and changes in the distribution of population by age and sex than would otherwise be expected (July 2016 est.)

Country comparison to the world: 27

Nationality:

Noun: Tanzanian(s)

Adjective: Tanzanian

### Ethnic groups:

Mainland - African 99% (of which 95% are Bantu consisting of more than 130 tribes), other 1% (consisting of Asian, European, and Arab); Zanzibar - Arab, African, mixed Arab and African

### Languages:

Kiswahili or Swahili (official), Kiunguja (name for Swahili in Zanzibar), English (official, primary language of commerce, administration, and higher education), Arabic (widely spoken in Zanzibar), many local languages

Kiswahili (Swahili) is the mother tongue of the Bantu people living in Zanzibar and nearby coastal Tanzania;

although Kiswahili is Bantu in structure and origin, its vocabulary draws on a variety of sources including Arabic and English; it has become the lingua franca of central and eastern Africa; the first language of most people is one of the local languages

### Religions:

Christian 61.4%, Muslim 35.2%, folk religion 1.8%, other 0.2%, unaffiliated 1.4%

Zanzibar is almost entirely Muslim (2010 est.)

### Demographic profile:

Tanzania has the largest population in East Africa and the lowest population density; almost a third of the population is urban. Tanzania's youthful population – about two-thirds of the population is under 25 is growing rapidly because of the high total fertility rate of 4.8 children per woman. For Tanzania, most migration is internal, rural to urban movement, while some temporary labor migration from towns to plantations takes place seasonally for harvests. Tanzania was Africa's largest refugee-hosting country for decades, hosting hundreds of thousands of refugees from the Great Lakes region, primarily Burundi. Tanzania is increasingly a transit country for illegal migrants from the Horn of Africa and the Great Lakes region who are heading to southern Africa for security reasons and/or economic opportunities. Some of these migrants choose to settle in Tanzania.
